## P3™ TURBO-X THIN TURBO MESH BLADE FOR PORCELAIN / GRANITE

### WITH X RIM DESIGN

Special thin turbo-mesh rim design and core for fast cut and minimal chipping.

- 10mm diamond rim.
- Long life.
- Thin turbo-mesh rim and core for fast cutting and minimal chipping.
- Ideal for cutting extra hard ceramics, porcelain and other hard/dense materials.
- Reinforced inner core prevents flexing and provides straight cuts.
- Blade cuts extremely cool.
- Wet or dry cutting. 10" wet cutting only.

To get the best performance:

Don't drop or jam in the cut.

Don't leave on the grinder when not in use.

Don't grind, twist or side-stress.

PT. NUMBER	SPECS	MAX RPM
