

Seam Phantom®

Original Electric

(SP-E2)

- The Seam Phantom Original Electric can be used in the shop or on a job site
- Utilizes an external water feed system and attaches to an inexpensive Makita Grinder model no. 9564CV, 9565CV, GA5042C or GA4542C (for additional models see website)
- Includes a GFCI adapter and accessories to help keep your grinder dry

Seam Phantom®

Air

(SP-A2)

- The Seam Phantom Air is optimized for shop use where sufficient compressed air is available
- Utilizes the center water feed feature of the air polisher
- Many compatible polishers - see website (maximum nose diameter is 2.125")

Seam Phantom®

Center Water Feed Electric

(SP-E2W)

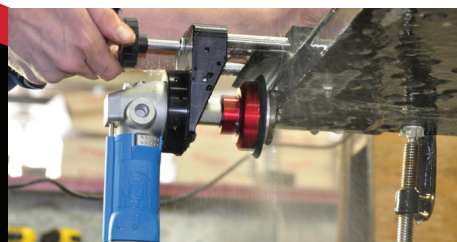

- The Seam Phantom (CWFE) is OEM provisioned for wet use and can be used in the shop or on the job site
- Utilizes the polisher's center water feed system which is less likely to create dust
- Designed to fit onto the Makita PW5001C
- GFCI adapter built into the polisher

The Best Sales Tool

Unightly seams are the #1 complaint of many stone countertop buyers. Share the superior quality of your Seam Phantom seam and overcome any customer concerns with a side-by-side sample comparing your new "Seam Phantom Standard" to the old "Industry Standard."

Create and showcase your Seam Phantom seam sample with your favorite designers, general contractors and local kitchen & bath showrooms. This will help secure more jobs, increase revenue and assure repeat business and referrals.

Seal the Deal with a Seam

Testimonials

"With in 15 minutes we had it outfitted with our Makita grinder and were backgrinding seams... I'm amazed at how easy, quick and great the seams look!... It's now an indispensable tool in our shop!!!"

-Phil Auzas, Desert Sun Natural Stone Inc.

"Seam Phantom, Consistent, predictable results every time."

-Curtis Marburger, SFA

"It works so good that I call it the stone stretcher. If my slab is only 114" and I need a 118" top..... Phantom it, glue it, top polish it and voila! stretched stone."

-Tony Neylon, SFA, MIA, DELTA STONE, LLC, MOBILE, AL

"Simply the tightest seam you can have...There is no room for improvement...."

-Scott McGourley, Kasco Stone, Tampa, FL
