

FORMULA 131

Tenax

FORMULA 131

ETCH & STAIN PROTECTION

FOR NATURAL STONE

PROTECT YOUR STONE SURFACES WITH FORMULA 131

Our patented Formula 131 water based sealer, protects your natural stone surfaces from etching and staining caused by household products, food and beverages for up to 24 hours. Outperforms the competition in etch and stain resistance through independent testing.

STAIN RESISTANT

ANTI-ETCHING & CHEMICAL RESISTANT

WATER RESISTANT

FOOD SAFE

ENVIRONMENTALLY SAFE

"INVISIBLE" SEAL

CLEANING

- To clean, use any ordinary household cleaner. Dawn dish soap for example is excellent to use
- Liquid abrasive household cleaners should only be used after being tested in a small area to ensure no damage results.
- DO NOT clean with scouring pads, steel wool, or other abrasive implements.
- Cleaners containing ammonia, bleach or other harsh chemicals should NOT be used or wiped up quickly.

PERFORMANCE TESTING*

Stain Resistance	
Chemical Resistance	
Abrasion Resistance	

*TCNA (Tile Council of North America) independent study.

MAINTENANCE

- To remove minor scuff marks from everyday wear of the surface, use a dry Magic Eraser to lightly rub away any surface level blemishes.
- For continued maintenance of the surface appearance we recommend using the Formula 131 Daily Cleaner or a mild dish soap that does not contain ammonia.
