

DYE-LOC

Color-bleed Prevention

No-Bleed Rinse

- ✓ Residential Carpet
- ✓ Commercial Carpet
- X Upholstery
- X Oriental Rugs
- 7.5 RTU pH

X = Primary Use ✓ = Secondary Use

Reduce the Risk

Use Dye-Loc on upholstery and rugs you suspect may color-bleed. Follow the directions on the back panel and start cleaning delicate rugs and upholstery confidently.

For professional use only.

Keep out of reach of children!

Before using, read all cautions and directions!

DYE-LOC is a water-based fixing agent for direct and reactive dyes. It significantly improves both washfastness and crockfastness of dyed cellulosic and protein fabrics and their blends. It actually locks fugitive dye-stuff at the molecular level without affecting the light fastness of the dye. Tests show that after one treatment with Dye-Loc, dye-stuff will not easily migrate at future cleanings. Dye-Loc also provides an anti-static quality to the treated textile.

Contents: One U.S. Quart (.94 Litres)

DIRECTIONS:

Procedure for Cleaning Oriental Rugs that may bleed.

1. Test rug for colorfastness. Pretest procedure below on small section of back of rug before proceeding.
2. If you think rug may bleed, add 3 oz. Dye-Loc per gallon of warm water. Apply with professional sprayer..
3. Prespray rug with Fabric Prespray diluted 1 to 8 with warm water.
4. Rinse and extract with up to 3 ounces of Dye-Loc for each gallon in your rinse water.

Test textile (fabric) for colorfastness.

If bleeding is not instantaneous, prespray with Bridgepoint Fabric Prespray, agitate, then add 3 oz. Dye-Loc per gallon warm/hot water and extract through machine as normal. Quick dry.

If bleeding is instantaneous, prespray fabric with Dye-Loc (3 oz. per gallon warm/hot water). Dry foam application with Bridgepoint Upholstery Shampoo, then agitate with natural sponge. Extract with Dye-Loc as described above.

SAFETY INFORMATION

Use only with adequate ventilation and follow

proper application techniques. If respiratory tract is irritated, move victim to fresh air immediately. If eye contact occurs, flush immediately with large amounts of water for at least 15 minutes. See a physician. If skin contact occurs, flush exposed area with soap and plenty of water. Remove all contaminated clothing. If ingested, consult a physician or poison control center immediately. Treat symptomatically.

CONTAINS: Proprietary formula.

INSTRUCCIONES:

Prebe la tela para asegurarse que los colores no se destiñan.

Si los colores no se destiñen inmediatamente, aplique un rociado preliminar de Bridgepoint Fabric Prespray, agítelo en la superficie y luego añada 3 onzas de Dye-Loc por galón (23 ml por litro) de agua tibia/caliente y extraígallo usando la máquina de la forma acostumbrada. Séquelo rápidamente.

Si los colores sí se destiñen inmediatamente, aplique un rociado preliminar a la tela usando Dye-Loc (3 onzas por galón [23 ml por litro] de agua tibia/caliente). Aplique una espuma seca con Bridgepoint Upholstery Shampoo, luego agítela con una esponja natural. Extraígallo con Dye-Loc tal como se describió anteriormente.

INFORMACIÓN SOBRE SEGURIDAD

Utilice el producto sólo con una ventilación adecuada, y observe los métodos correctos de aplicación. Si se irrita el sistema respiratorio, lleve a la víctima inmediatamente al aire fresco. Si el producto entra en contacto con los ojos, lávelos inmediatamente con abundante agua durante 15 minutos por lo menos. Obtenga atención médica. Si entra en contacto con la piel, lave el área expuesta con jabón y con suficiente agua. Quite toda la ropa contaminada. Si se ingiere el

producto, consulte inmediatamente con un médico o con un centro de control de veneno. Trate los síntomas.
