· Additional information:	For the wording of the listed hazard phrases refer to section 16.	

#### **SECTION 4: First aid measures**

### · 4 1 Description of first aid measures

· General information:	Take affected persons out into the fresh air.
	Position and transport stably in side position.
	Immediately remove any clothing soiled by the product.
	Symptoms of poisoning may even occur after several hours; therefore medical
	observation for at least 48 hours after the accident.
· After inhalation:	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.
	In case of unconsciousness place patient stably in side position for
· After skin contact:	transportation. If skin irritation continues, consult a doctor.
Alter Skill Contact.	Immediately wash with water and soap and rinse thoroughly.
· After eye contact:	Rinse opened eye for several minutes under running water. If symptoms persist,
Alter eye contact.	consult a doctor.
· After swallowing:	A person vomiting while laying on their back should be turned onto their side.
· Information for doctor:	With reference to section 2 the formulation contains styrene in the indicated
	mass concentration range. Styrene fumes will preferably be incorporated by
	inhalation via respiratory tract, skin resorption is currently considered as an
	inferior way of incorporation. In case of inhalation styrene is absorbed in a 60-
	90% range. Distribution in organism occurs rapidly, the maximum blood
	concentration can be analyzed after one hour after incorporation. Styrene
	exposition affects skin, mucous membranes, and central nervous system (CNS).
	Acute damages / risks to health:
	In case of styrene poisoning mainly damages to and interactions with central
	nervous system (CNS) arise. In concentration ranges above 200 ml/m3
	symptoms such as fatigue, nausea, imbalance and prolonged response times
	are observed.
	Chronical health risks:
	Effects at central and peripheral nervous system and respiratory tract are evident
	in literature.
	Main health risks are:
	- prolonged response times
	<ul> <li>reduced cognitive performance, partial amnesia</li> </ul>
	<ul> <li>retardation of nervous impulse transition speed</li> </ul>
	- disturbances of pulmonary function

	Breathing difficulty Dizziness
Hazards	Danger of impaired breathing.
	Skin contact with polyester and epoxy resin solutions as ingredient of the productions
	should be avoided due to risks of skin irritations or allergic skin appearances
	occasional hand contact can not be avoided, protection gloves, proper protect
	ointments and protective agents generating a protective layer on the skin we
	applied.
4.3 Indication of any immediate	
medical attention and special	
treatment needed	If swallowed, gastric irrigation with added, activated carbon.
Suitable extinguishing agents: For safety reasons unsuitable	CO2, powder or water spray. Fight larger fires with water spray or alco resistant foam.
extinguishing agents:	Water with full jet
5.2 Special hazards arising from	
the substance or mixture	Formation of toxic gases is possible during heating or in case of fire.
	In case of fire, the following can be released:
	Carbon monoxide (CO)
	Nitrogen oxides (NOx) Under certain fire conditions, traces of other toxic gases cannot be exclude
	e.g.: Hydrogen cyanide (HCN)
5.3 Advice for firefighters	
Protective equipment:	Wear self-contained respiratory protective device.
<u>I</u>	Do not inhale explosion gases or combustion gases.
	Wear fully protective suit.
	Mount respiratory protective device.
Additional information	Dispose of fire debris and contaminated fire fighting water in accordance w
	official regulations.
	Collect contaminated fire fighting water separately. It must not enter the sewa system.
	System.
SECTION 6: Accidental release n	neasures
6.1 Personal precautions,	
protective equipment and	
emergency procedures	Ensure adequate ventilation

Ensure adequate ventilation. 6.4 Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information. **SECTION 7: Handling and storage** · 7.1 Precautions for safe handling Keep receptacles tightly sealed. Store in cool, dry place in tightly closed receptacles. Keep away from heat and direct sunlight. Ensure good interior ventilation, especially at floor level. (Fumes are heavier than air). Use only in well ventilated areas. Ensure good ventilation/exhaustion at the workplace. · Information about fire - and explosion protection: Keep ignition sources away - Do not smoke. Protect against electrostatic charges. · 7.2 Conditions for safe storage, including any incompatibilities · Storage: · Requirements to be met by storerooms and receptacles: Store only in the original receptacle. Prevent any seepage into the ground. Information about storage in one common storage facility: Store away from oxidising agents. Store away from foodstuffs. · Further information about storage conditions: Store receptacle in a well ventilated area. Keep container tightly sealed. · Storage class: З · 7.3 Specific end use(s) No further relevant information available. **SECTION 8: Exposure controls/personal protection** · 8.1 Control parameters · Additional information about design of technical facilities: No further data; see item 7. · Ingredients with limit values that require monitoring at the workplace: 100-42-5 styrene WEL Short-term value: 1080 mg/m<sup>3</sup>, 250 ppm Long-term value: 430 mg/m<sup>3</sup>, 100 ppm 1330-20-7 xylene (mix) WEL Short-term value: 441 mg/m<sup>3</sup>, 100 ppm Long-term value: 220 mg/m<sup>3</sup>, 50 ppm Sk: BMGV 64-17-5 ethanol WEL Long-term value: 1920 mg/m<sup>3</sup>, 1000 ppm 8002-74-2 paraffin wax WEL Short-term value: 6 mg/m<sup>3</sup> Long-term value: 2 mg/m<sup>3</sup> 108-31-6 maleic anhydride WEL Short-term value: 3 mg/m<sup>3</sup> Long-term value: 1 mg/m<sup>3</sup> Sen

· Additional inform	mation:	The lists valid during the making were used as basis.
· <u>8.2 Exposure c</u>	controls	
Personal protect		
	ive and hygienic	
measures:		Do not eat, drink, smoke or sniff while working.
		Use skin protection cream for skin protection. Clean skin thoroughly immediately after handling the product.
		Keep away from foodstuffs, beverages and feed.
		Immediately remove all soiled and contaminated clothing
		Wash hands before breaks and at the end of work.
		Do not inhale gases / fumes / aerosols.
		Avoid contact with the eyes and skin.
<ul> <li>Respiratory pro</li> </ul>	tection:	Short term filter device:
		Filter A/P2
		In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.
· Protection of ha	ands:	Preventive skin protection by use of skin-protecting agents is recommended.
110100101101110		After use of gloves apply skin-cleaning agents and skin cosmetics.
		Skin protection agent recommendation for preventive skin shelter without use of
		protective gloves:
		ARRETIL (http://www.stoko.com)
		Skin protection agent recommendation for preventive skin shelter in application
		and combination of protective gloves: STOKO EMULSION (http://www.stoko.com)
		Skin protection recommendation for skin cleaning after product handling:
		Kresto Classic (http://debstoko.com)
		Skin protection agent recommendation for skin aftercare:
		STOKO VITAN (http://www.stoko.com)
		The protection gloves to be used have to comply with the specifications of the
		directive 89/686/EC and the directive derived decree EN374, respectively, e.g.
		the above listed protection glove type. The mentioned permeation times' data
		were generated and verified with material samples of the recommended protection glove type in the scope of laboratory anylyses of the company KCL
		GmbH in compliance with EN374.
		This recommendation refers exclusively to the material safety data sheet
		referenced product delivered by Akemi and the indicated field of application. In
		case of product dilution or in case of mixture with different substances or
		chemicals, and in condition of EN374 deviation the producer of CE-approved
		protection gloves must be contacted for detailed information (e.g., KCL GmbH,
		Germany, 36124 Eichenzell, internet: http://www.kcl.de).
		Protective gloves
		The glove motorial has to be importantly and resistant to the one had
		The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

### Trade name: Marble Filler 1000 Universal, styrenereduced

	(Contd. of page 14)			
· <u>Stowage Category</u>	A			
· 14.7 Transport in bulk according to Annex II of Marpol				
and the IBC Code	Not applicable.			
· Transport/Additional information:				
· ADR				
· Excepted quantities (EQ)	Code: E1			
	Maximum net quantity per inner packaging: 30 ml Maximum net quantity per outer packaging: 1000 ml			
· Remarks:	Without hardener component: no dangerous goods < 450			
·IMDG				
· Limited quantities (LQ)	5L			
· Excepted quantities (EQ)	Code: E1			
	Maximum net quantity per inner packaging: 30 ml Maximum net quantity per outer packaging: 1000 ml			
· <u>Remarks:</u>	Without hardener component: no dangerous goods < 30 l			
·IATA				
· Remarks:	Without hardener component: 3/III UN 1866 Resin			
	Solution			
· UN "Model Regulation":	UN 3269 POLYESTER RESIN KIT, 3, III			

### SECTION 15: Regulatory information

### · 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

· <u>Directive 2012/18/EU</u> · <u>Named dangerous substances -</u>	
ANNEXI	None of the ingredients is listed.
· Seveso category	P5c FLAMMABLE LIQUIDS
· Qualifying quantity (tonnes) for the	
application of lower-tier	
requirements	5,000 t
· Qualifying quantity (tonnes) for the	
application of upper-tier	
requirements	50,000 t
· National regulations:	
· Information about limitation of use:	Employment restrictions concerning juveniles must be observed. Employment restrictions concerning pregnant and lactating women must be observed.
· Waterhazard class:	Water hazard class 2 (Self-assessment): hazardous for water.
· VOC EU	249.8 g/l
15.2 Chemical safety	-
assessment:	A Chemical Safety Assessment has not been carried out.

#### **SECTION 16: Other information**

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

· Relevant phrases

- H225 Highly flammable liquid and vapour.
- H226 Flammable liquid and vapour.
- H300 Fatal if swallowed.
- H302 Harmful if swallowed.
- H304 May be fatal if swallowed and enters airways.
