

Precision Mastermade Paints, Inc. Joplin, MO 64804

Section 1—Product and Company Identification

Product Number:	LC4058
Product Name:	LITHCO SILVER
Manufacturer's Name	Precision Mastermade Paints, Inc.
	8040 E. Alliance Parkway, Joplin, MO 64804
Phone:	417-659-8900
Fax:	417-659-8901
Emergency:	800-535-5053

Website:

Section 2—Hazard(s) Identification

WARNING! Flammable liquid and vapor.

**HMIS Codes Health: 3 Flammability: 2 Reactivity: 0

Causes skin and eye irritation

Keep away from sources of ignition

Do not breathe gas, fumes, vapor, or spray

Section 3—Composition/Information on Ingredients

PFSDS Components

% by Weight CAS Number	ComponentName		Unit	Vapor-Pressure
1.96 100-41-4	Ethylbenzene			7.0 mmhg@20c

Section 4-	-First Aid Measures				
Eye Contact	Rem	nove contact lenses. Flush Eyes v	with large am	ounts of wa	ter for 15 minutes. Seek medical attention.

Eye Contact

Remove contact lenses. Flush Eyes with large amounts of water for 15 minutes. Seek medical attention.

Skin Contact

Remove and launder contaminated clothing. Wash affected area thoroughly with soap and water. DO NOT use solvents or thinners.

Inhalation	Remove to fresh air. Keep warm and at rest. Restore breathing. Seek medical attention.				
Ingestion	DO NOT induce vomiting. Get medical attention immediately. Provide SDS to medical personnel.				
Other	Treat symptomatically. Contact poison control and/or seek medical attention as needed.				
Section 5—Fire-Fighting Measures					
Extinguishing Media	Carbon dioxide, Dry chemical, Foam, Water spray fog				
Unsuitable Extinguishing Media	Avoid solid water stream as this may spread flammable liquid.				
Unusual Fire And Explosion Haza	ards Closed containers may explode or auto ignite when exposed to extreme heat. Vapors may spread long distances and ignite. Vapors may form explosive mixtures with air. During emergency conditions, exposure to burning product may cause health hazard. Symptoms may not be immediately apparent. Seek medical attention.				
Special Fire Fighting Procedures	Full protective equipment and self-contained breathing apparatus should be used.				
Section 6—Accidental Rele	ease Measures				
Personal Precautions	Avoid inhalation, ingestion, and contact with skin or eyes. Remove all sources of ignition. Ventilate area				
Emergency Procedures	Wear appropriate PPE (Personal Protective Equipment). Contact appropriate authorities needed, if necessary, for immediate action and containment. Emergency Contact Number: 800-535-5053				
Environmental Precautions	Do not allow to enter drains or water courses. In case of sewer or drain contamination, contact local water company; water stream contamination, contact EPA				
Spill Clean Up Methods	Ventilate area. Dike area with inert material. Remove product with inert absorbent, shovel or sweep up. Keep in suitable containment for approved disposal.				
Section 7—Handling and S	torage				
Handling and Precautions	Use appropriate protective equipment. Use only adequate ventilation; wear appropriate respirator when ventilation is inadequate. Do not breathe dust, vapor mist, or gas. Keep container closed when not in use. Transfer only to approved containers with complete and appropriate labeling. Do not ingest or get on eyes, skin, and clothing. Eating, drinking, and smoking should be prohibited in areas where this material is handled, processed, and/or stored. Wash hands and face thoroughly before eating and drinking. Take precautionary measures agains electrostatic discharge. Dissipate static electricity during transfer by grounding and bonding containers and equipment before transferring material. Use explosion proof electrical ventilating, lighting, and material handling equipment. Follow US NFPA 30, "Flammable & Combustible Liquids Code," or other national, state, and local codes on the safe handling of flammable liquids				
Storage	Store in designated flammable area NFPA 30 and OSHA 29 CFS 1910.106 approved. Store in original containers or approved container with complete and appropriate labeling. Keep out of direct sunlight and in a cool, dry, well ventilated area; away from incompatible materials, oxidizing materials, and food or drink. Store away from heat, spark, open flame, or all other ignition sources. Keep container tightly sealed until use. Open containers must be carefully resealed and stored upright to prevent leakage. Avoid exposure to oxygen; exposure may increase the instance of exothermic reation, resulting in smoldering and potential combustion. Improper storage may result in spontaneous generation of heat and ignition.				
Section 8—Exposure Controls/Personal Protection					
Exposure Controls/Personal Protection	Use only with adequate ventilation Avoid contact with skin and eyes. Avoid breathing vapor or spray mist. Respiratory protection may be needed if adequate ventilation cannot be obtained. Eye protection should be used at all times when using this product. Intentional misuse by deliberate concentration and inhalation of this product can be harmful or fatal.				
Section 9					
Appearance	Silver Liquid				
Odor	Aromatic				
Odor Threshold					
	N/A				

Melting Point	N/A
Boiling Point	212 F
Flash Point	45 F
Evaporation Rate	1 (Air=1)
Flammability	Class 3 Flammable
Flammability Limits	Lel. 2% Uel. 8%
Vapor Pressure	15 (mm Hg)
Vapor Density	4 (Air=1)
Relative Density	less then 1
Solubility	Not Soluable in Water
Parition Coefficient	N/A
Ignition Temp	N/A
Decomposition Temp	N/A
Viscosity	> Water
Section 10—Stability and	l Reactivity
Reactivity	Stable under normal conditions
Chemical Stability	Stable under the recommended storage and handling conditions (see Section 7); hazardous polymerization will not occur.
Conditions to avoid	Freezing, direct sunlight, high heat. All possible ignition and spark or flame sources. Do not pressurize, cut, braze drill, grind, or heat containers.

	Avoid pure oxygen.
Materials to avoid	Keep away from oxidizing agents and strongly alkaline and acidic materials to prevent the possibility of exothermic reaction.
Hazardous Decomposition	Under normal conditions, hazardous decomposition should not occur. In a fire, hazardous decomposition products such as smoke, carbon monoxide, carbon dioxide, and oxides of nitrogen may be produced.

Section 11—Toxicological Information
