# Installation Made Easy!

## Save time & money - Patent Pending

### 1 - Secure the easy mount brackets (hardware included)

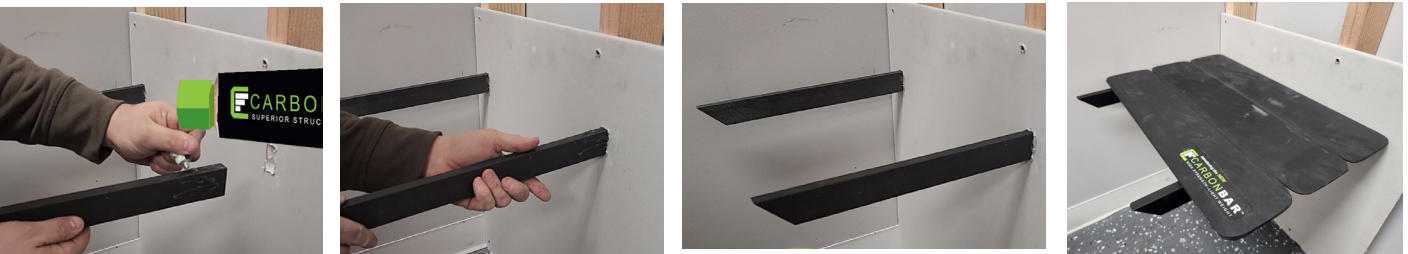

### 2 - Peel off protective layer and Insert, level and secure CarbonBar's

### 3 - Remove CarbonBars for wall cover installation - router out CarbonBar pockets

### 4 - Apply adhesive to the one end of the CarbonBar - re-insert - securing to the bracket

**E CARBON BAR**  
HIGH STRENGTH - LIGHT WEIGHT

**Weight Capacity** - The floating shelf system is designed to hold a maximum weight of 1400lbs. Exceeding this weight limit may result in shelf failure, causing damage to the shelf and surrounding property, and potential injury.

**Installation** - Proper installation is crucial for safety and performance. Follow the provided instructions carefully. The manufacturer is not responsible for any damage or injury resulting from improper installation.

**Usage** - Floating shelves are intended for decorative purposes and light storage. Avoid placing heavy or unstable items on the shelves. Always ensure that items are securely placed to prevent them from falling.

**Liability** - manufacturer and distributor are not liable for any damages, injuries, or losses resulting from the use or misuse of the floating shelf system. By purchasing and using this product, you agree to assume all risks associated with its use.
