

Free of lumps and mixed in no time

AOX-S – the most versatile mixer for a wide range of materials

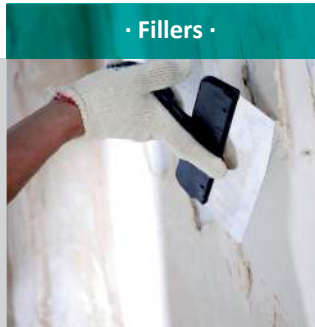

› Materials and applications

MADE IN
GERMANY

• Tile adhesives •

• Fillers •

• Bonding agents •

• Grout •

• Cement mortars •

• Levelling compounds •

AOX-S rotation mixer

- Compact, light and easy to transport. One person can easily handle transporting this machine.
- Productivity: interchangeable buckets increase productivity while short mixing times enable high hourly throughput.
- Best workability thanks to completely mixed material. This supports the optimal effectiveness of the building material.
- Interchangeable mixing tools for a wide range of materials with different viscosities to work with. Rim scraper to prevent material deposits on the side of the bucket.
- Health and safety: Safety shutdown as soon as the machine is opened. A dust extractor can be connected.
- A transport trolley is available as an accessory for transporting the buckets
- Ideal for tile and reinforcing adhesives, fillers, slurries, mortars, stucco, leveling compounds and much more
- The practical assistant for tilers, floor layers, masons, painters, restorers, etc.

Material to mix with the chosen paddle: DLX KR

Cement mortar		+
