SLIM SLAB TABLE HD

Material reinforcement reimagined

Prevent your slab from sliding, shifting or breaking

Save your material.

The sturdiest thin material table on the market holds slabs up to 600 lb. Material Support Pucks and Stop Posts keep the material off the rails and securely on the table during scoring, cutting, beveling, and more.

Save your back.

Comfortable work height and easy-adjust leveling feet makes all-day fabrication on uneven floors a breeze.

Save your time.

One person can assemble or break down the table in under 2 minutes for ease of transport and storage.
