

Not just better...Superior!

PEARL

100% VINYL ESTER STONE ADHESIVE

FULL KNIFE GRADE

- Very light / white (*pearlescent*) color making it ideal for invisible joints especially on light colored stones.
- A more "typical" Knife Grade consistency for use on horizontal and vertical applications
- Helps reduce the shadowing effect in light colored and porous stones
- Consistent color from "can-to-cure"
- Perfect for mitering, seaming, laminating, rodding and chip repair on all types of natural stone including dense granite and quartz surfaces
- For indoor applications. Gel Time: 5-7 min* / Tack Free Cure Time 15-25 min* (*Avg. @ 68°)

EHC KNIFE GRADE

- Very light / white (*pearlescent*) color making it ideal for invisible joints especially on light colored stones.
- Unique Knife Grade maintains its full-body viscosity preventing it from getting thin and runny while mixing (*Enhanced Handling Characteristics*)
- Helps reduce the shadowing effect in light colored and porous stones
- Consistent color from "can-to-cure"
- Perfect for mitering, seaming, laminating rodding and chip repair on all types of natural stone including dense granite and quartz surfaces
- For indoor applications. Gel Time: 5-7 min* / Tack Free Cure Time 15-25 min* (*Avg. @ 68°)

FLOWING

- Colorless, making it ideal for invisible joints especially on medium/dark colored stones.
- Pourable making it ideal for horizontal applications
- Consistent color from "can-to-cure"
- Perfect for laminating and chip repair on all types of natural stone including dense granite and quartz surfaces
- For indoor applications. Gel Time: 5-7 min* / Tack Free Cure Time 15-25 min* (*Avg. @ 68°)
