

BRAZED BITS

CONE AND FINGER BITS

- Advanced vacuum brazed bits are manufactured with superior quality diamonds for fast reaming speeds and long life.
- The diamond beveling bits are designed to enlarge, shape, trim and finish the existing holes in porcelain, tile, marble, ceramic, granite, etc.
- 80/100 diamond grit creates a smooth and clean surface effect on hole edges
- Universal 5/8-11 thread for angle grinders.
- Can be used dry or wet.

VBT™ VACUUM BRAZED TECHNOLOGY

VBT™ allows for more diamond particles to be exposed on the core. This exposure produces the aggressive cutting action.

MODEL	ITEM ID	SPECS	SHAPE
PAVBC138	879221	1-3/8 diameter x 5/8-11	CONE
PAVBC200	879222	2 diameter x 5/8-11	CONE
PAVBFB38	879223	3/8 diameter x 2 x 5/8-11	FINGER BIT
PAVBFB10	879224	1 diameter x 2 x 5/8-11	FINGER BIT
