SMOOTH KNIFE GRADE

(paste)

GV-9

THICKER KNIFE GRADE

(thicker paste)

- Cutting-edge, unrivaled resin technology outperforms epoxy systems.
- Great for seaming, mitering, laminating, rodding and repairing. Highly polishable.
- Strongest mechanical & chemical bonding. Can easily handle CNC pressure.
- Very low in color. Can easily be colored with Superior Coloring Paste.
- For use with natural stone, quartz surface, sintered stone, porcelain and more!
- Extremely fast cure time. "Tack-Free" in less than 20 minutes.
- For Indoor AND Outdoor applications. Excellent UV stability.
- Easy to use. No difficult mixing ratios and no special dispensers required.
