

SCS

SIMPLE CLIP SYSTEM

Benefits

- ◆ Industrial Strength
- ◆ Economical
- ◆ Easy to Use
- ◆ Long-lasting
- ◆ Biodegradable

Applications

- ◆ Locker Rooms
- ◆ Grease Traps
- ◆ Garbage Chutes
- ◆ Maintenance/Utility Rooms
- ◆ ...wherever simple deodorization is required!

Originally designed to meet specific needs of European municipalities, the **SIMPLE CLIP SYSTEM (SCS)** from VaporTek is now available as a powerful, easy-to-use deodorizer wherever basic deodorization is needed!

Simply attach one clip to the infused, industrial-strength disk and anchor the other clip so that the disk hangs freely and air is allowed to circulate around it. The **SCS** can be placed discreetly to conceal it and discourage vandalism, or left unshielded where tampering and visual exposure are not concerns.

The alligator clips and 7.25-inch chain are made of rust-proof, nickel-plated steel. The three-inch, biodegradable fiber disk contains 25 grams of VaporTek's 3X Industrial or SOS (Smoke Odor Solution) oil blends. In testing, the disk was proven to remain effective for as long as 90 days.

The **SCS** has unlimited usage applications. For example:

- ✓ Contents chambers
- ✓ Locker rooms/athletic facilities
- ✓ Under manhole covers in streets
- ✓ Grease trap vents
- ✓ Garbage chutes/areas
- ✓ Exhaust/sewer vents
- ✓ Maintenance/utility closets
- ✓ Semi-trailers/transport vehicles
- ✓ Portable toilets...and many other commercial/industrial uses

"Simply" clip the SCS on the back of a fan for instant, powerful odor neutralization!

Description	Part #
SCS Clips	90-0959
SCS Disks	34-7625
