

Saiger's Deep Blue Rinse All Purpose - All Fiber Rinse Tech Sheet

“Take your Cleaning to new Depths”

To complement and enhance our Saiger's Sauce line of products with even more DEEP cleaning results, we worked diligently to create our new Saiger's Sauce Deep Blue All Purpose– All Fiber Rinse!

pH: 4.5-6

*Slightly acidic to neutral depending on mixing ratios, we worked to create a rinse that would neutralize and also provide extra cleaning power with no residues!

*The enhanced cleaning power will speed up your cleaning times.

*One Rinse that is safe on all fibers yet will rival also high alkaline rinses and tackle those dirty restaurant and commercial situations.

*So Versatile can be used with Wool, and other fine fabrics, or even to help remove urine salts deposits.

*A great conditioning agent that will help to bring out the colors of the acid dyes in carpets and make them fluffy and soft!

* Stabilizes dyes, inhibits browning and color bleeding.

*SAFE for all Carpet cleaning equipment. Not too acidic that will have a negative effect on the plumbing of your expensive truck mounts and portables!

Directions and Suggested use

For carpet and water cleanable upholstery, test in an inconspicuous location. Do not mix with other cleaning detergents.

For use in most truck mounts, mix 1 quart into 5 gallons of water, set meter at 2 gallons per hour (set higher flow for heavier soils if needed).

For Truck mounts using CC metering (Butlers) mix 1 quart into your 2.5-gallon container with water. Meter as usual.

For portable units, mix 1 to 2 ounces per gallon of water. (Some units might use as little as 1 to 2 ounces per 3 gallons of rinse water)

For use as a spray rinse, mix 4 to 6 ounces per gallon; apply at the rate of 200-500 square feet; rake into carpet, and extract.

For urine stains, dilute 6 to 8 ounces per gallon; saturate and allow to dwell for 15 minutes, then extract (apply enzyme such as P-Lime-Zyme AFTER saturation and extraction if using this product).
