

TECHNICAL DATA SHEET - POTEA GRIS

Shining powder for granit

Abrillantador

COMERCIAL NAME: POTEA GRIS

USE: Shining powder for granit

DESCRIPTION: The POTEA - shining powder for granite ts periodical use for maintenance of granite surfaces guarantees the preservation of the original natural shine. It is produced in three different colours (white – grey – black), adapted to the different colour tones of the granites.

White for light granites

Gray for dark granites

Black for very dark / black granites

COMPOSITION:

Waxes and dyes

APPLICATIONS:

Dark Granite Brightener

HOW TO USE:

The surface has to be clean and dry. Do not dilute or mix with other products. Pour a little quantity of the product (approx. 20gr.x sq.mt.) Over an area of about 2 sq.m. And add a little of water. Buff with the polishing machine fitted with a white pad and spread the paste over all the area to be treated. Gloss will appear while the paste is dissolved by buffing. If the mixture is getting dry, add a little of water to dissolve the product again. If the mixture is too liquid, use the other side of disc and buff again the surface, drying the liquid excess. Once the surface is dry and shinny, vacuum it and rinse with clean water.

HAZARD IDENTIFICATION

Danger Indications: The product is not classified as hazardous within the meaning of Regulation (EU) No 1272/2008.

Precautionary statements: In normal use conditions and in its original form, the product itself does not involve any other risk for health and the environment.

Keep out of the reach of children.
Do not ingest.

Keep only in original container.

OTHER:

Appearance: Solid

Colour: Dark Grey

Odour: N.D./N.A.

pH: NDA

Boiling Point:

N.D./N.A.= Not Available/Not Applicable due to the nature of the product
